HEAVY RAIN CAUSES SINKHOLE AT PENDER STREET

1 December 2017

Fiji Roads Authority (FRA) would like to advise members of the public that there is sinkhole at the junction of Berry Road, Pender Street and Marion Street.

FRA Central Maintenance Contract Manager Viliame Vatuwaliwali says the sinkhole occurred due to dislocation culvert underneath the road structure during the heavy downpour.

“For safety measure, the sinkhole was backfilled with AP40 and cones are placed around the concerned area.”

He said the FRA is dealing with the utility providers to find out the location of underground service lines before excavation and repair works is carried out.

Public are advised to take note of the hazard while travelling in and around this area.
