

PUBLIC ADVISORY

INCREASE IN POTHoles AFTER FLOOD EVENT

The prolonged heavy rain has inevitably resulted in an increase in the number of potholes in some places around the capital, particularly on the old pavement on the Nausori bound lane on Ratu Mara Road near Raiwasa junction.

Our contractor is working hard to resolve the situation but this is likely to take a few days, subject to weather conditions.

We are asking members of the public, especially motorists to please be patient and drive to the conditions. The FRA regrets the inconvenience.
