

FORM K

Introduced November 2017

When undertaking construction work during subdivision and development the applicant is required to engage with the FRA to undertake inspection at the various stages. It is recommended that the inspection be arranged in at least **three (3) working days** in advance to allow FRA to schedule the inspection within its daily work.

Note: The FRA will require copies of approved plans and its conditions to be forwarded to FRA before any inspections can be undertaken. All tests results submitted to FRA should be from a certified lab.

Inspections schedules recommended but not limited too:		Comments
1	Prior to commencement of work	
2	Setting out of Traffic Management Plan	
3	Material Test to be submitted prior to use of any materials in accordance with FRA Roadworks & Standard Specifications 2014.	
4	Sub-grade and submission of test results	
5	Base Course and submission of test results	
6	Top Course and submission of test results prior to sealing/ concreting	
7	Inspection will need to be scheduled for streetlights, footpath and drainage works.	
8	Submission of request for Compliance refer Form D
