
MEDIA RELEASE

ROADWORKS ON PRINCES ROAD PROGRESSING WELL

19 May 2019

Roadworks on Princes Road is progressing well to schedule and will be completed by Tuesday, 28th May, weather permitting.

Works begin daily from 7.30pm to 5.30am from Tamavua Hill side up to the College of Medicine Nursing and Health Sciences, Princes Road.

The greater part of the pavement repair works are being carried out at night, restricting the road to single lane traffic under Stop/Go Traffic Control.

During the day our contractor will maintain two-way traffic during peak morning and afternoon traffic periods.

To reduce the risk of rain delays surfacing works will be carried out from time-to-time in off-peak traffic hours and motorists are to expect delays.

Members of the public are requested to make their travel plans with these works in mind, avoiding this route if possible. Motorists are also reminded to strictly adhere to the directions of the flagman and the site traffic control, to ensure the safety of other motorists and workmen alike.

The FRA is grateful for the public's continued cooperation and patience during the works and we are committed to minimising disturbance and traffic delays.
