- Yawe District Road, Section 2, Kadavu

Transport Infrastructure Investment Sector Project

The project aims to rehabilitate roads, bridges and rural jetties. The project has two outputs: (i) rehabilitated and climate-resilient land and maritime transport infrastructure, and (ii) efficient project management support and institutional strengthening. The project is financed through an Asian Development Bank loan (60%) of US\$100 million and World Bank loan (30%) of US\$50 million and counterpart financing by the Government of Fiji (10%).

- Taveuni Bridges
- Ovalau Bridges
