Capital Community Programme

The project covers work to improve the safety of pedestrians and travellers in communities on the outskirts of developed areas.

Streetlight Improvement Programme

The objective of the project is to create more secure society by improving visibility for drivers and making streets safer to walk at night. Street lighting provides a feeling of assurance, it beautifies Fijian streets and communities, and allows business to operate during the evening hours.

- Vanua Levu Streetlighting programme from Labasa to Savusavu
- Labasa Central Business District, Labasa Urban & Savusavu Central Business District

Transport Infrastructure Investment Sector Project

The project aims to rehabilitate roads, bridges and rural jetties. The project has two outputs: (i) rehabilitated and climate-resilient land and maritime transport infrastructure, and (ii) efficient project management support and institutional strengthening. The project is financed through an Asian Development Bank loan (60%) of US\$100 million and World Bank loan (30%) of US\$50 million and counterpart financing by the Government of Fiji (10%).

- Rabaraba and Solovi 1 and 2
- Design for Jetties - Nabouwalu, Natovi and Savusavu
