Road surfaces have been degraded and bridge and crossings compromised by flooding. FRA team have been working tirelessly to ensure a safe network, and will continue to do so.

However, we do ask road-users and the general public to exercise extreme caution and drive with care and due consideration for other road users.

There are some repairs to the network and network structures that cannot be carried out until the current severe weather front passes away from Fiji. We apologize for any inconvenience but we are doing this in the interests of safety and practicality.

Several roads are being monitored for closure and we will continue to issue alerts and warnings as required.

Members of the public can also contact the FRA on toll free number 5720 or email info@fijiroads.org
