# PUBLIC ADVISORY

---

## **UPGRADE AND INSTALLATION OF TRAFFIC SIGNAL IN LABASA**

Fiji Roads Authority (FRA) wishes to advise members of the public that we are currently upgrading the existing traffic signal and installing a new traffic signal at existing pedestrian crossing adjacent to Park Street in Labasa.

All construction works will be carried out during off peak hours and at night including Sundays. Full access will be provided to pedestrians accessing the pedestrian crossing including the footpaths at all times.

Motorists are advised to follow the speed limit signage set up for the temporary traffic management for easy access and pedestrians are advised to follow the signages in place.

All works are anticipated to be completed by Tuesday, 3<sup>rd</sup> November.

FRA wishes to apologize for any inconvenience. For further queries please call FRA on 5720.
