

LAND ACQUISITION & RESETTLEMENT DUE DILIGENCE REPORT

Fiji: Transport Infrastructure Investment Sector Project

Kings Road Rehabilitation Project (KRRP): Package B - Site 15G – Site 15J

ADB Project Number: 48141
ADB Loan Number: 3210-FIJ
WB Project Number: P150028

May, 2023

Prepared by Fiji Roads Authority for the Asian Development Bank and World Bank.

This report is a document of the Fiji Roads Authority. The views expressed herein do not necessarily represent those of Asian Development Bank's and World Bank's Board of Directors, Management, or staff, and may be preliminary in nature.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, the ADB/WB does not intend to make any judgments as to the legal or other status of any territory or area.

1.0 INTRODUCTION

1.1 Project Overview and Report Rationale

1. With loan funding from the Asian Development Bank (ADB) and World Bank (WB), together with funding from the Government of Fiji (GOF), the Fiji Roads Authority (FRA) are implementing the Transport Infrastructure Investment Sector Project (TIISP). TIISP will improve access to socio-economic opportunities by upgrading and rehabilitating land and maritime transport infrastructure across the Fiji Islands (ADB, 2015a). The overall objectives of the Project are improved access to markets, employment opportunities, and social services. The outcome will be improved safety and resilience of land and maritime transport infrastructure for users of project roads, bridges and rural jetties and wharves.

2. One of the sub-projects proposed under this package is the Kings Road Rehabilitation Sub-project. Kings Road Rehabilitation sub-project involves the rehabilitation and upgrade of fourteen sections of sealed road in the Central (Tailevu Province) and Western (Ra and Ba Province) Divisions with an approximate total length of 54km. The sub- project involves road pavement upgrades, small sections of road widening within the existing road reserve, footpath repairs and footpath installations. The total cost of this sub-project is FJ\$124 million.

3. The objective of the sub-project are to lower the overall road maintenance costs, improve the safety of road users (drivers and pedestrians) and improve the travel comfort of road users. Other outcomes expected from the sub- project will be lower road user costs through reduced damage to vehicles. This will be achieved by rehabilitating the existing road pavements that have reached the end of their serviceable life.

4. A Kings Road Rehabilitation Project (KRRP) Land Acquisition and Resettlement Due Diligence Report (LARDD¹) was prepared by the Fiji Roads Authority (FRA) and approved by the ADB and WB in 2019.

5. With approximately more than one (1) year period / interval of the cut-off date in 2019 from the start of physical works in 2022; there was a need for another round of social safeguard screening for all the road project. Priority areas have been divided into two (2) parts; road sections that are yet to be constructed are being prioritized first (Priority A) for screening of any impacts or displacements so that it could either be avoided / minimized or mitigation measures applied. Priority B areas include all road sections that have been completed or still under constructions; its screening and reporting is undertaken to review if social safeguards commitments were complied with and where corrective measures will be undertaken if otherwise. KRUP B Section 15G – 15J falls under Priority A.

6. The findings of this KRRP B LARDD report for Sections 15G – 15J verifies that no permanent land acquisition and resettlement impacts will occur. No temporary or permanent economic or physical displacement will be required for the completion of physical works. Furthermore physical works will not block access to the affected persons.

7. This Land Acquisition and Resettlement Due Diligence Report (LARDD) has been prepared for Kings Road Rehabilitation Project (KRRP) B: Central – Site 15G to Site 15J and submitted to the Asian Development Bank (ADB) and World Bank (WB) confirming the adherence to the Land Acquisition and Resettlement Framework (LARF, 2016²) that has been prepared for the Project (ADB, 2015b). It aims to receive an approval to “No Objection” to construct.

1.2 Methodology

8. The preparation of this land acquisition and resettlement due diligence report included a review of existing reports and information on the sub-project. This included engineering design, land ownership details, stakeholder consultation records and other relevant information. Documents were sourced from the ADB and GOF, as well as online sources.

¹ <https://www.fijiroads.org/wp-content/uploads/2022/10/Kings-Road-Rehabilitation-LARDD.pdf>

² <https://www.fijiroads.org/wp-content/uploads/2022/10/Land-Acquisition-and-Resettlement-Framework-May-2016.pdf>

9. The proposed extent of works was digitized and mapped using computer-aided design (CAD) software. The sub-project extent was overlaid with cadastral and administrative boundaries to determine any likely impact on private land and/or assets.

10. Field verification was carried out by FRA safeguards team covering Sections 15G to 15J in order to verify that no permanent land acquisition or displacement of persons will be required as a result of the sub-project.

11. Consultation was undertaken with key stakeholders regarding the sub-project including regulatory authorities and community representatives. The purpose, scope and outcome of these consultations are discussed further in Section 4.

2.0 DESCRIPTION OF PROPOSED WORK

2.1 Site Location

12. Section 15G to 15J is situated within the Central (Tailevu Province) Divisions, on the north-east coast of Viti Levu, Fiji (figure 1). The section catchment area starts from Nayavu Village to Wailotua Village. It passes through a total of 7 villages; Nayavu Village (15G), Naqia & Naveiveiwali Village (15G), Nabouva Village (15H), Nasautoka Village(15I), Naveicovatu Village (15I/J), Malabe Village(15I/J) and Wailotua Village (15J) (Figure 2).

Figure 1

KRRP B – Sections 15A to 15J

Figure 2

KRRP B – Sections 15G to 15J

2.2 Scope of Work

13. Physical works will involve widening of sealed carriageway to 11m which will accommodate x2 3.5 vehicle lane and x2 2m footpath, construction of road pavement- 25years design to International Standards (Austroads), upgrading of road side drainage, installation of new guardrail and replacement of old guard rails, installation of redundant conduits for EFL and TFL, construction of dedicated bus-bays (new and old), installation of new road lines and signs to international standards.

3.0 LAND ACQUISITION AND INVOLUNTRY RESETTLEMENT

14. The sub-project involved the rehabilitation of existing roads within the Central Division and there is no new route.

3.1 Land Ownership

15. All scope of works on maintenance and upgrade of KRUP B from Section 15G to Section 15J are within road reserves. There is no extra land needed for this maintenance and scope of work outside road reserve and there is no need to permanently acquire any private land.

16. The road catchment from sections 15G to 15J requires to temporary use land for stockpile area and laydown area. Table 1 shows locations of Stockpile and Laydown Areas. Consents from

landowners are annexed.

Table 1

Location and Use of Area
Nayavu Stockpile Area
Malabe Stockpile Area
Naseibitu Stockpile Area 1
Naseibitu Stockpile Area 2

3.2 Land Use

17. The road section 15G to 15J to be upgraded pass through a mix of residential and subsistence farming as well as some undeveloped land. This section which is part of Kings Road directly and indirectly services schools, police and fire stations, markets, health centers, religious places and cultural and recreational facilities in some capacity. Kings Road also provide an important linkage to the West and Central Division.

18. Itaukei land titles are located directly adjacent to where the sub-project works will be undertaken. However, all construction work will be undertaken within the existing road reserve, and all these land titles will not be impacted by the works.

19. Since there is no depot along this road sections, construction laydown areas and stockpile areas have been identified in between the sections of which its respective landowners have been approached and have consented for the temporary use of the areas.

20. A preliminary survey was done in 2022 which confirmed a number of stalls erected on roadside used for Agriculture sales and also some vegetation farms within the road reserve. Table 2 shows a summary of number of stalls in the different locations along Sections 15G – 15J:

Table 2

#	Location	Quantity	Sales Type
1	Nayavu Village	4	Fast Food , Juice , Root Crops, Fruits and Vegetable
2	Nasaibitu Village	1	Root Crops
3	Nabouva Village	4	Root Crops, Fruits and Vegetables
4	Nasautoka Village	4	Root Crops, Fruits, Vegetables, Sasa Broom
5	Naveicovatu Village	3	Root Crops, Fruits, Vegetables, Sasa Broom
6	Malabe Village	3	Root Crops, Fruits, Vegetables, Sasa Broom, Flower Pot Plants
7	Navunivesi Settlement	2	Root Crops, Fruits and Vegetables
8	Wailotua Village	4	Root Crops & Fruits

21. The stalls inspected are of temporary make with an average size of 3m x 4m. Those selling

root crops, vegetables and fruits have 4 wooden posts dug directly to the ground with a small sheet of corrugated iron as roofing, some with several wooden shelves placed on the frontage for produce display. There is no flooring (direct use of ground area) and can potentially be shifted around. Those selling food are located both in similar stalls and others in pop – up tents.

22. These stall users sell their produce with an average of 4 days per week and average of 5 hours per day. The work schedule will progress in stages and contractors have planned to either work during non-sales day (Usually on Saturdays) or work as much as possible to complete the area surrounding the stalls / villages. Access to these stalls will be maintained all throughout the project period for their customers which are usually the commuters along Kings Road.

23. It is confirmed that no stalls located within this section are going to be relocated as all are outside/behind the road reserve. Stall owners have been consulted and assured that access to their stalls will still be available and most works are targeted to be done outside their selling hours. This was well received by them. Contractors liaison personal too are working closely with them to ensuring minimal disturbances towards their businesses during works.

24. Major pavement rehabilitation work will be undertaken during night time hours, and reinstated during the day, to ensure there are minimal restrictions to access shops, residential areas, and pedestrian access on sidewalks.

25. Clearance of roadside vegetation will be required on few places. The clearance of small ornamental roadside shrubs is required for the pedestrian refuge, but no trees, shrubs or crops located on private land require removal.

4.0 INFORMATION DISCLOSURE CONSULTATION & PARTICIPATION

26. Public consultations and information disclosure is an integral part of the environmental and social assessment process.

4.1 Consultation Undertaken

27. An initial consultation was done in 2019 introducing the Kings Road Upgrade Projects. Another rounds of consultations was held in all the 7 villages that is located along this Section 15G – 15J road catchment shortly before construction works started. Apart from the main villages there were farm houses located in between along the road and pamphlet were also distributed. All communications was done in vernacular for the understanding of the targeted community.

28. The Villagers were refreshed of this Kings Road Upgrade Projects as per the last related 2019 consultation. Information on scope of works, work hazards and preventative measures, impacts during phase of work, work schedules per locations, grievance redress mechanism and contact information was discussed. Table 3 below shows the dates of consultations and pamphlet drop-offs in each village. Sample of pamphlet and attendance records are annexed for reference.

Table 3

Date	Site	Village	Males	Females	Total
11/04/2022	15G	Nayavu	18	16	34
11/04/2022	15G	Naqia & Naveiveiwali	12	7	19
10/03/2022	15H	Nabouva	18	9	27
10/03/2022	15H	Nasautoka	7	9	16
10/03/2022	15I	Naveicovatu	11	12	23
10/03/2022	15I	Malabe	18	9	27
10/02/2022	15J	Wailotua	11	4	15

29. Apart from community consultations, informative signage of timing, scope of work and contacts is placed within active (construction) sites. A comments register is also available on site to record all issues raised by the public. This is usually submitted on a weekly basis so that issues raised are attended to by FRA Safeguards team.

4.2 Information Disclosure

30. The projects EIA reports, LARDD reports, monitoring reports and progressive reports are uploaded on the FRA Websites and available for public's information.

5.0 CONCLUSION

31. After undertaking inspections, interview and screening; It has therefore been determined that there are no directly affected persons (APs) by the KRUP B for Sections 15G – 15J. No resettlement (either physical or economic) is anticipated and no compensation (either cash or land replacement) for land acquisition or resettlement is considered necessary.

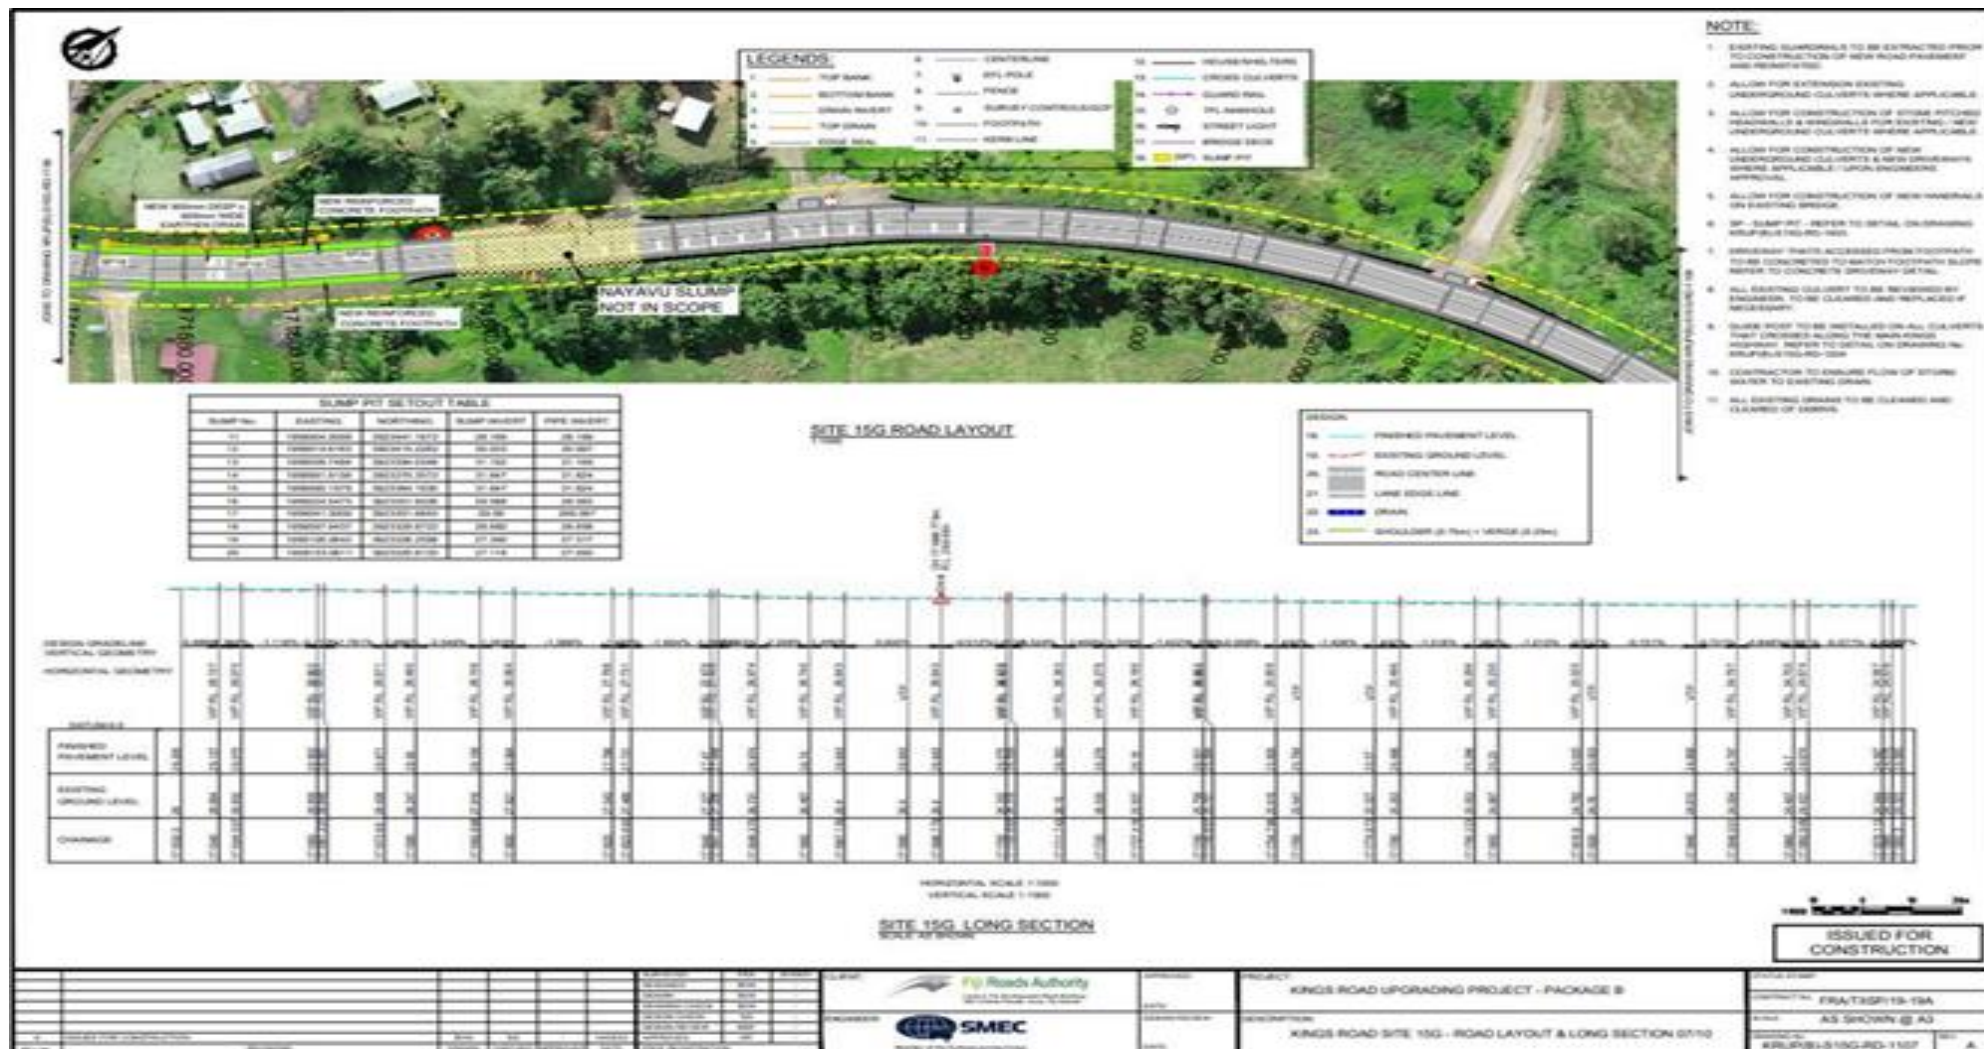

6.0 RECOMMENDATION

32. No objection to the contractor to proceed on the basis of social safeguards.

Annex 1: Screening Form

Project Title: <u>Fiji: Transport Infrastructure Investment Project</u>		Loan No: <u>ADB 3210-FJ</u>		
Subproject: <u>Kings Road Upgrading Project – Package B</u>		Date: <u>14/03/2023</u>		
Location and impact area: <u>Section 15G – 15J</u>				
<i>Answer below with tick or cross in yes, no or not known column, do not place NA in the columns.</i>				
Probable Land Acquisition/Resettlement Effects	Yes	No	Not Known	Remarks
Temporary Use of Land				
Will the subproject need land for a diversion, camp, work yard or other requirement during construction period?	<input checked="" type="checkbox"/>			Stockpile and Laydown areas. Consented by Landowners for temporary use in the duration of the project.
Will the temporary use of land require removal of crops and/or trees?		<input checked="" type="checkbox"/>		No removal of crops or trees.
Will the temporary use of land create partial or full impacts on a main structure (house or commercial building)?		<input checked="" type="checkbox"/>		No Structures affected.
Will the temporary use of land create impacts on livelihoods or income generating assets?		<input checked="" type="checkbox"/>		No impacts on income livelihood for temporary use of land.
Acquisition of Land				
1. Will there be land acquisition?		<input checked="" type="checkbox"/>		Within Road Reserve.
2. Is the site for land acquisition known?		<input checked="" type="checkbox"/>		Within Road Reserve.
3. Is the ownership status and current usage of land to be acquired known?	<input checked="" type="checkbox"/>			Within Road Reserve.
4. Will easement be utilized within an existing Right of Way (ROW)?	<input checked="" type="checkbox"/>			Within Road Reserve.
5. Will there be loss of shelter and residential land due to land acquisition?		<input checked="" type="checkbox"/>		
6. Will there be loss of agricultural and other productive assets due to land acquisition?		<input checked="" type="checkbox"/>		
7. Will there be losses of crops, trees, and fixed assets due to land acquisition?		<input checked="" type="checkbox"/>		
8. Will there be loss of businesses or enterprises due to land acquisition?		<input checked="" type="checkbox"/>		
9. Will there be loss of income sources and means of livelihoods due to land acquisition?		<input checked="" type="checkbox"/>		
Restrictions on land use or on access				
10. Will people lose access to natural resources, communal facilities and services?		<input checked="" type="checkbox"/>		
11. If land use is changed, will it have an adverse impact on social and economic activities?		<input checked="" type="checkbox"/>		
12. Will access to land and resources owned communally or by the state be restricted?		<input checked="" type="checkbox"/>		
Information on Displaced Persons: There will be no Displacements of any Persons				
Any estimate of the likely number of persons that will be affected by temporary use of land during construction period? []				
No [] Yes				
If yes, approximately how many? _____				
Any estimate of the likely number of persons that will be displaced by the Project? [] No [] Yes				
If yes, approximately how many? _____				
Category for resettlement impacts ¹ : A [] B [] C []				
Are any of them poor, female-heads of households, or vulnerable to poverty risks? [] No [] Yes				
Are any displaced persons from indigenous or ethnic minority groups? [] No [] Yes

Annex 4: Pamphlet Consultation Distribution Sheet

COMMUNITY AWARENESS PAMPHLET DISTRIBUTION SHEET

Distribution Officer: MAKELI TOKALAWERE
Project: KRUP - B

Company: Higgins Rureaki
Supervisor: Steve Taganesea

By signing below I acknowledge I have received copies of the Kings Road Upgrade Project (KRUP) B pamphlet on the signed date that will be distributed and discuss with the village members which includes the summary of the roadworks to be undertaken, the indication of the impacts, hazards associated with the roadworks, public safety precautions when nearing the roadworks sites and the project benefits/outcomes. Hence I accept my responsibility for doing what is required of me to ensure that the KRUP B works commences with minimal to no hindrances.

Annex 5: Landowners Consent for Stockpile & Laydown Areas

PERMISSION FOR TEMPORARY LAND USE

Contract: TIISP 19-19B-ADB/WB

Date: 02/03/22

TO WHOM IT MAY CONCERN:

I, NEUMANI NAELAVALU (property owner's name) give permission to Higgins (Fiji) Limited to use the property located at NABAIKALU for:- NABIKATU, NAYAVU (Matsuku) (Yanest) - no confirmed Tuvaga ni Matagi/Ha

- 1. Sealing chips/Sub-base/Basecourse
- 2. Excavated waste material
- 3. Laydown Area (Storage and partial assembly of the project equipment), Site Office
- 4. Use of water source for water cart refilling
- 5. Refuelling Bay and Parking Area

For the Kings Road Upgrade Project (KRUP B) term from 2021 to 2023.

This agreement may be renewed with the approval of both the property owner and the organization at the end of the agreement period. All questions about the proposed construction works, its nature, risks or hazards, have been discussed with the Project Supervisor/Engineer to my satisfaction.

As the property owner, I agree to notify Higgins (Fiji) of any change in land ownership, development, or use 60 days prior to the change in status.

I acknowledge that as property owner I am responsible for obtaining any land use permits or meeting any other compliance requirements required by any Fiji legislation or Approving Authority.

For questions regarding this correspondence, please feel free to contact the undersigned. Other Agreements: (to include rehabilitation plan)

keep waste material
level and compaction of area for house construction.

Please include/provide the following supporting documents:

Land title/ ownership/ Lease Document	Site Plan
Total land area approved for use	Volume per stockpile

Signed: Higgins Representative 		Signed: Property Owner

PERMISSION FOR TEMPORARY LAND USE

Contract: TIISP 19-19B-ADB/WB

Date: 24/02/22

TO WHOM IT MAY CONCERN:

I, Skelis K. Isilaba (property owner's name) give permission to Higgins (Fiji) Limited to use the property located at Isilaba village for;

- 1. Sealing chips/Sub-base/Basecourse
- 2. Excavated waste material
- 3. Laydown Area (Storage and partial assembly of the project equipment)
- 4. Use of water source for water cart refilling
- 5. Refuelling Bay and Parking Area

For the Kings Road Upgrade Project (KRUP B) term from 2021 to 2023.

This agreement may be renewed with the approval of both the property owner and the organization at the end of the agreement period. All questions about the proposed construction works, its nature, risks or hazards, have been discussed with the Project Supervisor/Engineer to my satisfaction.

As the property owner, I agree to notify Higgins (Fiji) of any change in land ownership, development, or use 60 days prior to the change in status.

I acknowledge that as property owner I am responsible for obtaining any land use permits or meeting any other compliance requirements required by any Fiji legislation or Approving Authority.

For questions regarding this correspondence, please feel free to contact the undersigned. Other Agreements: (to include rehabilitation plan)

- * Access on road access towards community hall.
- * Existing drains clearance.
- * safe road - f1000 per week. (metepali trust).

Please include/provide the following supporting documents:
